

CORRIGENDUM

Experimental evolution of an RNA virus in cells with innate immunity defects

Pablo Hernández-Alonso, Raquel Garijo, José M. Cuevas, and Rafael Sanjuán

Virus Evolution, 2015, 1(1): vev008

doi: 10.1093/ve/vev008

The authors wish to make the following correction to their article:

In Section 2.6, the sentence 'Mutations were introduced using a pair of *adjacent divergent primers*, one of which carried the desired change.' should be corrected to 'Mutations were introduced using a pair of *self-complementary primers carrying the desired change*.' The primers that we use in this work to make the single mutants were self-complementary primers, not adjacent divergent primers. The results and conclusion of the article are not affected and remain valid. The authors apologize to the readers for the inconvenience caused.
