Erratum

Erratum to Bianchi MT, Kim S, Galvan T, White DP, Joffe H. Nocturnal hot flashes: relationship to objective awakenings and sleep stage transitions. *J Clin Sleep Med* 2016;12(7):1003–1009.

The authors report corrections for two errors in the manuscript:

- Figure 1 legend should read: (A) Adjusted for amount of time spent in each stage and (B) Not adjusted for amount of time spent in each stage.
- The second sentence in the results section “Impact of Hot Flashes on Sleep-Wake Stage Dynamics,” should read: The number of objective hot flashes during the post-leuprolide PSGs did not correlate with the change from pre- to post-leuprolide in the transitions rate to wake or N1.
