

The following manuscript authored by F. Wang et al has been retracted from the AMIA 2015 Annual Symposium Proceedings by the Scientific Program Committee (SPC) upon agreement between the lead author and the SPC Chair of AMIA 2015 because it was found to be similar to a previously published manuscript in another publication.

A Graph Based Methodology for Temporal Signature Identification from EHR

FeiWang¹, Ph.D., Chuanren Liu², YajuanWang², Ph.D., Jianying Hu³, Ph.D., Guoqiang Yu⁴, Ph.D.
