## Identification of Aurora-A as a direct target of E2F3 during G<sub>2</sub>/M cell cycle progression.

Lili He, Hua Yang, Yihong Ma, W. Jack Pledger, W. Douglas Cress, and Jin Q. Cheng

This article has been withdrawn by the authors. The same data were used to represent different experimental conditions. Specifically, *lane 6* from the E2F3 panel in Fig. 1A was reused in *lane 8* of the same panel. *Lane 1* from the E2F3 panel from Fig. 4A was reused as *lane 3* of the same panel. The authors state that the image reuse does not affect the overall conclusions of the study.

Authors are urged to introduce these corrections into any reprints they distribute. Secondary (abstract) services are urged to carry notice of these corrections as prominently as they carried the original abstracts.
