Identification of Akt interaction protein PHF20/TZP that transcriptionally regulates p53.

Sungman Park, Donghwa Kim, Han C. Dan, Huihua Chen, Joseph R. Testa, and Jin Q. Cheng

This article has been with drawn by the authors. The same data were used to represent different experimental conditions. Specifically, the p53 panel from HCT116 cells in Fig. 4F was reused in the p53 panel from Fig. 5C. The authors state that the overall conclusions of the study are not affected.

Authors are urged to introduce these corrections into any reprints they distribute. Secondary (abstract) services are urged to carry notice of these corrections as prominently as they carried the original abstracts.
