

In “*Plasmodium falciparum* Protein Microarray Antibody Profiles Correlate With Protection From Symptomatic Malaria in Kenya” by Dent et al [J Infect Dis **2015**; 212:1429–38], the legend of Figure 4B was incorrect. Blue

should refer to “Protected children,” red should refer to “Protected adults,” and green correctly refers to “BH-corrected *P*.”

The authors and the publisher regret this error.
