

Statement of Retraction

Statement of Retraction. Hepatic Glucagon Action Is Essential for Exercise-Induced Reversal of Mouse Fatty Liver. *Diabetes* 2011;60:2720–2729. DOI: 10.2337/db11-0455

DOI: 10.2337/db16-rt08

The corresponding author wishes to retract the above-listed article. Representative Western blots in Fig. 4K were previously published as independent experiments representing distinct experimental conditions in a 2009 *Journal of Clinical Investigation* article (Fig. 5D; Berglund et al., *J Clin Invest* 2009;119:2412–2422) and a 2010 *American Journal of Physiology—Endocrinology and Metabolism* article (Fig. 6A; Berglund et al., *Am J Physiol Endocrinol Metab* 2010;299:E607–E614). The corresponding author contacted *Diabetes* to voluntarily report this inaccuracy and to request a retraction. He takes full responsibility for the error and apologizes to the journal, its readers, and the other authors.
