# Correction: A Twin Protection Effect? Explaining Twin Survival Advantages with a Two-Process Mortality Model

David J. Sharrow, James J. Anderson

In the Methods section, the third equation in the section titled "Estimating Model Parameters" is incorrect. Please view the complete, correct equation here:

$$l_x^e = \exp\left(-\frac{\lambda\beta}{r} \exp(-1/\beta)(\exp(rx/\beta) - 1)\right)$$
