

Reduced butyrylcholinesterase activity is an early indicator of trauma-induced acute systemic inflammatory response [Corrigendum]

Zivkovic AR, Bender J, Brenner T, et al. *J Inflamm Res.* 2016;9:221–230.

On page 226, Figure 3B and D, the *y*-axis label “WBCC (n/L⁻¹)” should be “WBCC (nL⁻¹)”.

On page 227, Figure 4D, the *y*-axis label “LLactate (mg/dL)” should be “Lactate (mg/dL)”.

The Journal of Inflammation Research is an international, peer-reviewed open access journal that welcomes laboratory and clinical findings on the molecular basis, cell biology and pharmacology of inflammation including original research, reviews, symposium reports, hypothesis formation and commentaries on: acute/chronic inflammation; mediators of

inflammation; cellular processes; molecular mechanisms; pharmacology and novel anti-inflammatory drugs; clinical conditions involving inflammation. The manuscript management system is completely online and includes a very quick and fair peer-review system. Visit <http://www.dovepress.com/testimonials.php> to read real quotes from published authors.
