*Scientific Reports* 7:40319; doi: 10.1038/srep40319; published online 11 January 2017; updated on 04 May 2017

This Article contains a typographical error in the Results section under subheading “Targeted exome sequencing”, where:

“Through this filtering process, we identified 24 SNVs [2 families (S86 and D1422) have compound heterozygotes and 2 families (D1339 and D1433) have more than 1 SNV] from 16 patients that are pathogenic or likely pathogenic (Table 1)”.

should read:

“Through this filtering process, we identified 24 SNVs [2 families (S86 and D1422) have compound heterozygotes and 2 families (D1339 and D1433) have more than 1 SNV] from 15 patients that are pathogenic or likely pathogenic (Table 1)”.

In addition, the Supplementary Information File originally published with this Article contained errors in Supplementary Table S1. These errors have now been corrected in the Supplementary Information that accompanies the Article.
