

Corrigendum

Pulmonary Circulation 2017; 7(2) 559

DOI: 10.1177/2045893217706334

Addressing the Challenges of Phenotyping Pediatric Pulmonary Vascular Disease

Kara N. Goss, Allen D. Everett, Peter M. Mourani, Christopher D. Baker, Steven H. Abman

March 2017

DOI: 10.1086/689750

Novel Methods in Pulmonary Hypertension Phenotyping in the Age of Precision Medicine (2015 Grover Conference Series)

Jarrold W. Barnes, Adriano R. Tonelli, Gustavo A. Heresi, Jennie E. Newman, Noël E. Mellor, David E. Grove, Raed A. Dweik

December 2016

DOI: 10.1086/688847

Pulmonary Vascular and Ventricular Dysfunction in the Susceptible Patient (2015 Grover Conference Series)

Bradley A. Maron, Roberto F. Machado, Larissa Shimoda

December 2016

DOI: 10.1086/688315

Integration of Complex Data Sources to Provide Biologic Insight into Pulmonary Vascular Disease (2015 Grover Conference Series)

Evan L. Brittain, Stephen Y. Chan

September 2016

DOI: 10.1086/686995

The Emerging Role of Epigenetics in Pulmonary Arterial Hypertension: An Important Avenue for Clinical Trials (2015 Grover Conference Series)

Jessica H. Huston, John J. Ryan

September 2016

DOI: 10.1086/687765

Novel Signaling Pathways in Pulmonary Arterial Hypertension (2015 Grover Conference Series)

Keytam S. Awad, James D. West, Vinicio de Jesus Perez, Margaret MacLean

September 2016

DOI: 10.1086/688034

In the above articles, the following funding statement should have been included:

The American Thoracic Society and the conference organizing committee gratefully acknowledge the educational grants provided for the support of this conference by Actelion Pharmaceuticals US, Inc., Gilead Sciences, Inc., Lung Biotechnology, and United Therapeutics Corporation. Additionally, the American Thoracic Society is grateful for the support of the Grover Conference by the American Heart Association, the Cardiovascular Medical Research and Education Fund, and the National Institute of Health.
