

## Correction

**BIOCHEMISTRY.** For the article “Regulation of the antioxidant response element by protein kinase C-mediated phosphorylation of NF-E2-related factor 2,” by H.-C. Huang, Truyen Nguyen, and Cecil B. Pickett, which appeared in number 23, November 7, 2000, of *Proc. Natl. Acad. Sci. USA* (**97**, 12475–12480), the authors note the following corrections due to printer’s errors. (i) The experimental concentrations of several reagents were listed erroneously in a number of places in the text and figure legends. They should have read as follows: tBHQ (100  $\mu$ M),  $\beta$ NF (50  $\mu$ M), U0126 (10  $\mu$ M), and Ro-32-0432 (2  $\mu$ M). (ii) In the section on the *in vitro* phosphorylation of Nrf2 by PKC (Fig. 5 legend and the corresponding *Materials and Methods*), the following concentrations should have appeared: Nrf2 (2  $\mu$ M), PKC (5 nM), ATP (200  $\mu$ M), and [ $\gamma$ - $^{33}$ P]ATP (2  $\mu$ Ci). (iii) In addition, the following were omitted from the list of references:
