In the originally published version of this article, 0.05 in the Table 1 legend should have been “0.05 or 0.005,” and 0.005 in the Table 2 legend should have been 0.05. Also, on page 5, the quality-control (QC) procedure has been clarified to indicate that it was performed by the QC working group of the Alzheimer Disease Sequencing Project instead of the authors. These errors have been corrected online and in print. *The Journal* apologizes for the errors and any confusion they may have caused.
