A corrigendum on

Genome-Based Taxonomic Classification of *Bacteroidetes*

by Hahnke, R. L., Meier-Kolthoff, J. P., García-López, M., Mukherjee, S., Huntemann, M., Ivanova, N. N., et al. (2016). *Front. Microbiol.* 7:2003. doi: 10.3389/fmicb.2016.02003

In the Taxonomic Consequences section of the Discussion chapter of the original article the type of the newly proposed class *Saprospira* was incorrectly indicated (and in conflict with the etymology paragraph) within the description of the class. A correction has accordingly been made to Discussion, Taxonomic Consequences, Description of *Saprospira*, class. nov.:

Description of *Saprospira*, class. nov.

Sa.pros.pi'ri.a (N.L. fem. n. *Saprospira*, type genus of the type order of the class, -ia ending to denote a class; N.L. fem. pl. n. *Saprospira*, the class of the order *Saprospirales*).

The description is the same as for the order *Saprospirales*.

This class is described on the basis of 16S rRNA gene and whole-genome phylogenetic analysis. The type and currently sole order of the class is *Saprospirales*.

The authors apologize for this error and state that this does not change the scientific conclusions of the original article in any way.

The original article has been updated.

Conflict of Interest Statement: The authors declare that the research was conducted in the absence of any commercial or financial relationships that could be construed as a potential conflict of interest.
