

**Corrigendum: The beneficial effect of prior experience on the acquisition of spatial memory in rats with CA1, but not large hippocampal lesions: a possible role for schema formation**

Amber C. Ocampo, Larry R. Squire, and Robert E. Clark

In the above-mentioned article, the citation at the top of page 117, column 2, to “Fig. 3A, right” should instead call out Fig. 4B, right. This has already been corrected online.

The author apologizes for this error.

In addition, a production error occurred that resulted in the inadvertent duplication of two passages, both of which have been corrected online.

In the PDF, page 117, top paragraph in second column, two sentences were erroneously inserted: “However, in contrast to the findings...” and “The H group was impaired relative to the other two groups...”

In the PDF, pages 117 and 118, beginning at the bottom of the right column on page 117, four sentences were erroneously inserted: “In the DMP First condition, mean distance swum...” and “A repeated-measures ANOVA demonstrated differences in performance...” and “Post hoc, pairwise comparisons showed that the CA1 group performed...” and “The results were the same in the WM First condition...”

The publisher apologizes for any confusion this may have caused.
