OPEN Author Correction: Toxic fluoride gas emissions from lithium-ion battery fires

Fredrik Larsson^{1,2}, Petra Andersson², Per Blomqvist² & Bengt-Erik Mellander¹

Correction to: *Scientific Reports* <https://doi.org/10.1038/s41598-017-09784-z>, published online 30 August 2017

This article contains a typographical error in the Conclusions section, where:

“The immediate dangerous to life or health (IDLH) level for HF is 0.025 g/m³ (30 ppm)²² and the lethal 10 minutes HF toxicity value (AEGL-3) is 0.0139 g/m³ (170 ppm)²³.”

should read:

“The immediate dangerous to life or health (IDLH) level for HF is 0.025 g/m³ (30 ppm)²² and the lethal 10 minutes HF toxicity value (AEGL-3) is 0.139 g/m³ (170 ppm)²³.”
