Role of *de novo* DNA methyltransferases and methyl CpG-binding proteins in gene silencing in a rat hepatoma.

Sarmila Majumder, Kalpana Ghoshal, Jharna Datta, Shoumei Bai, Xiaocheng Dong, Ning Quan, Christoph Plass, and Samson T. Jacob

This article has been withdrawn by the authors. The Journal questioned Figs. 1*B* and 6*B*. The authors state they were able to locate original data for Figs. 1*B* and 6*B*, which they believe support the published results. The authors stand by the reproducibility of the experimental data and the conclusions of the paper. The paper, with confirmatory data supporting the results, can be obtained by contacting the authors.
