

Erratum: The role of shear stress and arteriogenesis in maintaining vascular homeostasis and preventing cerebral atherosclerosis

In the article, "The role of shear stress and arteriogenesis in maintaining vascular homeostasis and preventing cerebral atherosclerosis", which appeared in the pages 53-62, issue 1, vol. 1 of Brain Circulation^[1], Table 1 which appeared in page 56, the arrow shown for the second column heading "Decrease" of the table was incorrectly written as an upward arrow "↑" instead of a downward arrow "↓". Table 1 is in continuation in the second column of the same page having the incorrect upward arrow "↑" shown for "Decrease" in the second column heading of the table instead of a downward arrow "↓".

These have now been corrected and reposted online.
