Correction to: *EMBO Reports* (2017) 19: 1382–1396. DOI 10.15252/embr.201643587 | Published online 27 June 2017

The authors recently noticed two labeling errors:

In Table 1, the LIR motif of FUNDC1 was incorrectly labeled as “amino acids 152-160”. The correct annotation of the LIR motif is “aa 15-23”.

In Tables 1 and 2, the protein names KTBD6 and KTBD7 were spelled incorrectly. The correct protein names are KBTBD6 and KBTBD7.

These errors have been corrected inline on the journal website (<https://doi.org/10.15252/embr.201643587>), but these corrections have not been updated on PubMedCentral (PMC5538626).

The authors apologize for these errors and any inconvenience caused by this oversight.
