The original version of this article unfortunately contained a mistake in the first sentence of the first paragraph in page 2. The sentence “In 2016, the Norwegian Register of births published a cohort study on all births occurred between 1984 and 2011 linking them with the Norwegian cancer registry data.” should be “In 2016, Reigstad MM et al. [7] published a cohort study on all births occurred between 1984 and 2011 linking them with the Norwegian cancer registry data.”
