<http://doi.org/10.1007/s12687-017-0310-z>

The published online version contains mistake in the Abstract section. Please find below the corrected text:

"In the abstract, the percentages for 'any positive lifestyle change' and 'improved dietary practices' have unintentionally been incorrectly reported. The correct values should be 24 and 16% respectively. The main text and tables, as well as the supplementary figures, report the correct values."

The online version of the original article can be found at <http://doi.org/10.1007/s12687-017-0310-z>.
