

## SI Correction

### PHYSIOLOGY

Correction to Supporting Information for “Mechanisms regulating angiogenesis underlie seasonal control of pituitary function,” by Jennifer Castle-Miller, David O. Bates, and Domingo J. Tortonese, which was first published March 7, 2017; 10.1073/pnas.1618917114 (*Proc Natl Acad Sci USA* 114:E2514–E2523).

The authors wish to note the following: “The list of VEGF-A primers presented in Table S3 contains several primers not used in the reported work. The correct list of all primers used is in the corrected Table S3.” The corrected Table S3, which now includes the specific use of each primer in a third column, appears below. The SI has been corrected online.
