Withdrawal: Glycosyl modification facilitates homo- and hetero-oligomerization of the serotonin transporter: a specific role for sialic acid residues.

Deniz Ozaslan, Sophie Wang, Billow A. Ahmed, Arif M. Kocabas, John C. McCastlain, Anca Bene, and Fusun Kilic

This article has been withdrawn by Deniz Ozaslan, Sophie Wang, Arif M. Kocabas, and Fusun Kilic. Despite attempts, Billow A. Ahmed, John C. McCastlain, and Anca Bene could not be reached for conference on this decision. Dr. Kilic contacted the editorial office to report a concern raised in the figures of this article. An investigation by the Journal determined the following. *Lane 2* from Fig. 1 was reused in *lane 2* of Fig. 6B. Additionally, in Fig. 1, *lanes 3* and *6* are duplicates. In Fig. 6A, *lanes 2* and *3* are duplicates. Due to the dated materials, the authors could not provide all of the original immunoblots, but they state that the immunoblots were not reused.
