In the original article, there was an error in Equation 10. The plus sign should be have been a minus, and the second a_{ik} in the numer-

ator should have been a_{ij} . This has now been corrected and the corrected equation appears below.

$$\frac{\partial Q_{ij}}{\partial w_l} = \delta((i, j) \in E) \frac{\frac{\partial a_{ij}}{\partial w_l} \sum_k a_{ik} - a_{ij} \sum_k \frac{\partial a_{ik}}{\partial w_l}}{(\sum_k a_{ij})^2} \quad (\text{Eq. 10})$$
