

Erratum: In the article “*Best1* Is a Gene Regulated by Nerve Injury and Required for Ca^{2+} -Activated Cl^- Current Expression in Axotomized Sensory Neurons” by Mathieu Boudes, Chamroen Sar, Aurélie Menigoz, Cécile Hilaire, Marie O. Péquignot, Alexei Kozlenkov, Alan Marmorstein, Patrick Carroll, Jean Valmier, and Frédérique Scamps, which appeared on pages 10063–10071 of the August 12, 2009 issue, there was an error. The illustrations of *Best1* and *Best3* gene expression by *in situ* hybridization (Fig. 1C and Fig. 4C) are erroneous because of the use of incorrect probes. These images and all discussion of them in the article should be disregarded. These data were mainly confirmatory of real-time PCR showing the increase in *Best1* and *Best3* transcripts and of electrophysiological experiments on cultured neurons showing the functional consequences of *Best1* and *Best3* on endogenous CaCC expressed in medium and large axotomized sensory neurons. As such, this error has no consequences for the main conclusions of the article.

Persons interested in becoming members of the Society for Neuroscience should contact the Membership Department, Society for Neuroscience, 1121 14th St., NW, Suite 1010, Washington, DC 20005, phone 202-962-4000.

Instructions for Authors are available at <http://www.jneurosci.org/misc/itoa.shtml>. Authors should refer to these Instructions online for recent changes that are made periodically.

Brief Communications Instructions for Authors are available via Internet (http://www.jneurosci.org/misc/ifa_bc.shtml).

Submissions should be submitted online using the following url: <http://jneurosci.msubmit.net>. Please contact the Central Office, via phone, fax, or e-mail with any questions. Our contact information is as follows: phone, 202-962-4000; fax, 202-962-4945; e-mail, jn@sfn.org.
