## REASON FOR WITHDRAWAL

We have received comments on this review and have withdrawn it from the Library while comments are being addressed.

## WHAT'S NEW

Date	Event	Description
16 November 2016	Amended	We have received comments on this review and have withdrawn it from the Library while comments are being addressed

## HISTORY

Protocol first published: Issue 3, 2004

Review first published: Issue 3, 2006

Date	Event	Description
31 December 2015	New citation required and conclusions have changed	The previous version of this review included 10 studies that focused on chronic neck pain. In this review, we included 27 studies representing acupuncture for a variety of acute and chronic neck disorders
31 December 2015	New search has been performed	The 'Risk of bias' assessment tool (Furlan 2009) was utilised for this update. Previously, according to our protocol, Jadad 1996 and van Tulder 2003 assessment tools were used Methods: inclusion criteria different from protocol; now only RCTs included
22 May 2014	Amended	Contact details updated
19 June 2008	Amended	Converted to new review format
