

# β-elemene inhibits radiation and hypoxia-induced macrophages infiltration via Prx-1/NF-κB/HIF-1α signaling pathway [Corrigendum]

Yu X, Li Z, Zhang Y, et al. *Onco Targets Ther.* 2019;12: 4203–4211.

Following a review of our data post-publication, we found the incorrect images were used for **Figures 1(D)** and **4(D)** during the process of data transmission and layout. This correction of images has no impact to the findings of the study. The authors apologize for these errors.

On pages 4206 and 4209, **Figures 1(D)** and **4(D)** should be presented as follows. The remaining of the figure images and captions for **Figures 1** and **4** remain as accurate as published.

**Figure 1 (D)**

**Figure 4 (D)**

OncoTargets and Therapy

Dovepress

### Publish your work in this journal

OncoTargets and Therapy is an international, peer-reviewed, open access journal focusing on the pathological basis of all cancers, potential targets for therapy and treatment protocols employed to improve the management of cancer patients. The journal also focuses on the impact of management programs and new therapeutic

agents and protocols on patient perspectives such as quality of life, adherence and satisfaction. The manuscript management system is completely online and includes a very quick and fair peer-review system, which is all easy to use. Visit <http://www.dovepress.com/testimonials.php> to read real quotes from published authors.
