

- 7788 Potentiation of Opioid Analgesia in Dopamine₂ Receptor Knock-Out Mice: Evidence for a Tonicly Active Anti-Opioid System
Michael A. King, Sheri Bradshaw, Albert H. Chang, John E. Pintar, and Gavril W. Pasternak
- 7793 Heterogeneity of the Population of Command Neurons in the Lamprey
Pavel V. Zelenin, Sten Grillner, Grigori N. Orlovsky, and Tatiana G. Deliagina
- 7804 Role of Tonicly Active Neurons in Primate Caudate in Reward-Oriented Saccadic Eye Movement
Yasushi Shimo and Okihide Hikosaka
- 7815 Glutamate Blocks Serotonergic Phase Advances of the Mammalian Circadian Pacemaker through AMPA and NMDA Receptors
Rebecca A. Prosser
- 7823 Accommodation Enhances Depolarizing Inhibition in Central Neurons
Pablo Monsivais and Edwin W. Rubel
- 7831 Incentive Sensitization by Previous Amphetamine Exposure: Increased Cue-Triggered “Wanting” for Sucrose Reward
Cindy L. Wyvell and Kent C. Berridge
- 7841 Novel Ca²⁺ Dependence and Time Course of Somatodendritic Dopamine Release: Substantia Nigra versus Striatum
Billy T. Chen and Margaret E. Rice
- 7848 Proprioceptive Information from the Pinna Provides Somatosensory Input to Cat Dorsal Cochlear Nucleus
Patrick O. Kanold and Eric D. Young
- 7859 Limb Movements during Locomotion: Tests of a Model of an Intersegmental Coordinating Circuit
Naranzogt Tschuluun, Wendy M. Hall, and Brian Mulloney

Cover picture: Autoradiographic imaging of regional cerebral blood flow using [¹⁴C]iodoantipyrine during experimental stroke attained by middle cerebral artery occlusion in transgenic mice overexpressing Bcl-2 under the control of neuron-specific enolase promoter. For details, see the article by Alkayed et al. in this issue (pages 7543–7550).

Correction: In the article “Barrel Pattern Formation Requires Serotonin Uptake by Thalamocortical Afferents, and Not Vesicular Monoamine Release,” which appeared on pages 6862–6873 of the September 2, 2001 issue, the name of an author was misprinted. The fourth author’s name should have read F. Scott Hall.

Persons interested in becoming members of the Society for Neuroscience should contact the Membership Department, Society for Neuroscience, 11 Dupont Circle, NW, Suite 500, Washington, DC 20036, phone 202-462-6688.

Instructions for Authors appear at the end of the January 1, 2001 issue. Copies of the Instructions can be obtained by writing to *The Journal of Neuroscience*, Society for Neuroscience, 11 Dupont Circle, NW, Suite 500, Washington, DC 20036, phone 202-462-6688, fax 202-462-1547, e-mail jn@sfn.org. The Instructions are also available via Internet (<http://www.jneurosci.org/misc/itoa.shtml>). *Rapid Communications* Instructions for Authors appear at the end of the January 15, 1999 issue and are also available via Internet (<http://www.sfn.org/RapidComm/ifa.html>). Submissions should be sent to the above address. Scientific inquiries concerning manuscripts can be made directly to Dr. Gordon M. Shepherd, Editor-in-Chief, *The Journal of Neuroscience*, Section of Neurobiology, Yale University School of Medicine, 333 Cedar Street, New Haven, CT 06510, phone 203-785-4336, fax 203-785-6990, e-mail jneurosci@yale.edu.

The Journal of Neuroscience requests that authors send a disk containing an electronic file of their manuscript with each submission. Most word processing software can be used; see the Instructions for Authors for detailed guidelines on acceptable disk and file formats.
