

In “Adaptation of *M. tuberculosis* to impaired host immunity in HIV-infected patients” by Walter et al [J Infect Dis 2016; 214:1205–11], Figure 2 was inadvertently

duplicated. The correct, single image is shown below.

The author and the publisher regret this error.

In “Ebola virus epidemiology and evolution in Nigeria” by Folarin et al [J Infect Dis 2016; 214(suppl 3): S102–9], the first sentence in the Data Analysis section incorrectly listed “6 SNPs” rather than “4 SNPs”. The correct sentence is: As noted in the

Discussion, new single-nucleotide polymorphisms (SNPs) were observed to be clustered, with 4 SNPs appearing in 1 sample, 2 in another, and none in the remaining 9 samples.

The authors regret this error.
