Correction to: Cardiovasc Intervent Radiol
<https://doi.org/10.1007/s00270-018-2118-6>

Toward the end of the second paragraph in the Discussion section, there is a word missing in the sentence “This may indicate that hepatic decompensation following is caused

by a severe underlying liver disease or an aggressive tumor biology compromising liver function.” It should read: “This may indicate that hepatic decompensation following TACE is caused by a severe underlying liver disease or an aggressive tumor biology compromising liver function.”

The original article can be found online at <https://doi.org/10.1007/s00270-018-2118-6>.
