

The authors of Dai et al. (2019) have supplied the following correction to their article.

During creation and editing of the images for this article, Figures 4b and 6e were confused. In Figure 4b, the immunofluorescence photo of TRAF3 in the control group came from the sample of reoxygenation time of 1,440 min, and the immunofluorescence photo of TRAF3 of mimic NC group in Figure 6e came from the control group sample.

The corrected figures are shown here.
