

Retraction for Sengupta et al., “Evidence of a Prion-Like Transmission of p53 Amyloid in *Saccharomyces cerevisiae*”

Shinjinee Sengupta,^a Samir K. Maji,^a Santanu K. Ghosh^a

^aDepartment of Biosciences and Bioengineering, Indian Institute of Technology Bombay, Mumbai, India

Volume 37, no. 18, e00118-17, 2017, <https://doi.org/10.1128/MCB.00118-17>. We retract this article because there are multiple image duplications in Fig. 1, 2, 3, 5, and 10 that occurred unintentionally due to inaccurate copying and pasting from the several similar-looking original images. We all agree with this retraction. We apologize for any inconvenience this may have caused.
