Withdrawal: Activation of autophagic flux against xenoestrogen bisphenol-A-Induced hippocampal neurodegeneration via AMP kinase (AMPK)/mammalian target of rapamycin (mTOR) pathways.

Swati Agarwal, Shashi Kant Tiwari, Brashket Seth, Anuradha Yadav, Anshuman Singh, Anubha Mudawal, Lalit Kumar Singh Chauhan, Shailendra Kumar Gupta, Vinay Choubey, Anurag Tripathi, Amit Kumar, Ratan Singh Ray, Shubha Shukla, Devendra Parmar, and Rajnish Kumar Chaturvedi

This article has been withdrawn by the authors. Portions of the LC3 immunoblot in Fig 2B overlap with Fig 3A. The *Control* and *BPA* (40 μg/kg) images in Fig 2F are duplicates. Considering these issues, the authors state that the responsible course of action is to withdraw the article to uphold the high standards of publication ethics of the scientific literature from the author's group and the Journal. The authors stand by the overall conclusions of the study and plan to republish the article with suitable changes in another journal.
