

The July 20, 2018, article by van Dorp et al entitled “Reproductive Function and Outcomes in Female Survivors of Childhood, Adolescent, and Young Adult Cancer: A Review” (*J Clin Oncol* 10.1200/JCO.2017.76.3441) was published with an error.

In the author list, list of affiliations, Author Contributions section, and Authors’ Disclosures of Potential Conflicts of Interest section,

a co-author’s name was displayed as Jeanette Falck Winther. It should have been displayed as Jeanette **F.** Winther.

This has been corrected as of January 27, 2020. *Journal of Clinical Oncology* apologizes for the error.

The January 20, 2020, article by Lluch et al, entitled “Phase III Trial of Adjuvant Capecitabine After Standard Neo-/Adjuvant Chemotherapy in Patients With Early Triple-Negative Breast Cancer (GEICAM/2003-11\_CIBOMA/2004-01)” (*J Clin Oncol* 10.1200/JCO.19.00904), was published with errors.

In Figure 2:

- The panel referring to OS on the basal phenotype was labeled panel E and positioned along the left side of the figure. **It should have been labeled panel D and placed along the right side of the figure, paired with panel C (DFS on the basal phenotype).**
- The panel referring to DFS on the nonbasal phenotype was labeled panel D and placed along the right side of the figure. **It should have been labeled panel E and placed along the left side of the figure, paired with panel F (OS on the nonbasal phenotype).**

The Figure 2 legend read: “**(A, C, D)** Disease-free survival (DFS) and **(B, E, F)** overall survival (OS) Kaplan-Meier curves on the intention-to-treat population and subpopulations based on the

immunohistochemistry phenotype.” It should have read: “Disease-free survival (DFS) and overall survival (OS) Kaplan-Meier curves on the intention-to-treat population and subpopulations based on the immunohistochemistry phenotype. **(A) DFS on the ITT population. (B) OS on the ITT population. (C) DFS on the basal phenotype. (D) OS on the basal phenotype. (E) DFS on the nonbasal phenotype. (F) OS on the nonbasal phenotype.**”

In the Results section, the final sentence of the second paragraph of the Efficacy subsection read: “Figures 2C and 2D show the Kaplan-Meier curves for DFS and OS, respectively, in the basal and nonbasal phenotype subpopulations.” It should have read: “Figures 2C and 2D show the Kaplan-Meier curves for DFS and OS, respectively, in the **basal phenotype subpopulation. Figures 2E and 2F show the Kaplan-Meier curves for DFS and OS, respectively, in the nonbasal phenotype subpopulation.**”

This has been corrected as of January 29, 2020. *Journal of Clinical Oncology* and the authors apologize for the errors.
