

Since January 2020 Elsevier has created a COVID-19 resource centre with free information in English and Mandarin on the novel coronavirus COVID-19. The COVID-19 resource centre is hosted on Elsevier Connect, the company's public news and information website.

Elsevier hereby grants permission to make all its COVID-19-related research that is available on the COVID-19 resource centre - including this research content - immediately available in PubMed Central and other publicly funded repositories, such as the WHO COVID database with rights for unrestricted research re-use and analyses in any form or by any means with acknowledgement of the original source. These permissions are granted for free by Elsevier for as long as the COVID-19 resource centre remains active.

**Correction to *Lancet Glob Health* 2021; published online Feb 17. [https://doi.org/10.1016/S2214-109X\(21\)00060-7](https://doi.org/10.1016/S2214-109X(21)00060-7)**

Nkuba Ndaye A, Hoxha A, Madinga J, et al. Challenges in interpreting SARS-CoV-2 serological results in African countries. *Lancet Global Health* 2021; published online Feb 17. [https://doi.org/10.1016/S2214-109X\(21\)00060-7](https://doi.org/10.1016/S2214-109X(21)00060-7)—In this Correspondence, information on the funding sources of the study was missing. This correction has been made as of March 8, 2021.

**Correction to *Lancet Glob Health* 2020; 8: e452–53**

Yan Niu, Fujie Xu. Deciphering the power of isolation in controlling COVID-19 outbreaks. *Lancet Glob Health* 2020; 8: e452–53—In this Comment, Yan Niu's surname was incorrectly written as Niud. This correction has been made as of March 26, 2020.

**Correction to *Lancet Glob Health* 2020; published online Feb 28. [https://doi.org/10.1016/S2214-109X\(20\)30074-7](https://doi.org/10.1016/S2214-109X(20)30074-7)**

Hellewell J, Abbott S, Gimma A, et al. Feasibility of controlling COVID-19 outbreaks by isolation of cases and contacts. *Lancet Glob Health* 2020, published online Feb 28; [https://doi.org/10.1016/S2214-109X\(20\)30074-7](https://doi.org/10.1016/S2214-109X(20)30074-7)—In the table of this Article, the row titled “Overdispersion in  $R_0$  (SARS-like, influenza-like)”, should have read “Overdispersion in  $R_0$  (SARS-like)”. In the Transmission scenarios section of the Methods, in the first sentence,  $R_0$  and transmission before symptom onset should have been listed as separate items. In figure legend 2A, the line marks the median, not the mean. In figure 2C, the key was incorrect: the box representing <1% should have been orange, and the box representing 30% should have been purple. These corrections have been made as of March 5, 2020.
