

Since January 2020 Elsevier has created a COVID-19 resource centre with free information in English and Mandarin on the novel coronavirus COVID-19. The COVID-19 resource centre is hosted on Elsevier Connect, the company's public news and information website.

Elsevier hereby grants permission to make all its COVID-19-related research that is available on the COVID-19 resource centre - including this research content - immediately available in PubMed Central and other publicly funded repositories, such as the WHO COVID database with rights for unrestricted research re-use and analyses in any form or by any means with acknowledgement of the original source. These permissions are granted for free by Elsevier for as long as the COVID-19 resource centre remains active.

The authors regret that in Table 3 (row 5, column 2), the date of the WHO declaring a Public Health Emergency of International Concern is incorrect. It should be 30th January 2020, not 30th December 2019, as

is correctly presented at section 1.1.

The authors would like to apologise for any inconvenience caused.
