Erratum for Dorsal Compressive Atlantoaxial Bands and the Craniocervical Junction Syndrome: Association with Clinical Signs and Syringomyelia in Mature Cavalier King Charles Spaniels

First published: 21 May 2015

Volume 29, Issue 3

Web address: <https://doi.org/10.1111/jvim.12604>

In the Abstract, Results section, the 3rd sentence should read as follows. Corrections are bolded.

“Bands were associated **with the presence** ($P = .0031$) **but not the severity** ($P = .008$) of clinical signs, **whereas their presence was associated with both the presence and severity of SM** ($P = .0147$, $P = .0311$, respectively).”

In section 2.2 Radiotherapy and medical group, 1st paragraph, 1st sentence should read as follows. Corrections are bolded.

Dogs that received **2D or 3D computer assisted targeted planned** radiotherapy and medical treatment formed the radiotherapy group and dogs that received medical treatment alone formed the medical group.
