In an early online edition, the units for apparent diffusion coefficients on Figures 2d and 4 were incorrect. These units should be  $\times 10^{-6} \text{mm}^2/\text{sec}$  on both Figures 2d and 4, not  $\text{mm}^2/\text{sec}^{-1}$  and  $\times 10^{-6} \text{mm}^2/\text{sec}^{-1}$ , respectively. On Figure 5, the area under the receiver operating curve data were rounded from an earlier version that appeared online.
