Correction to: *Signal Transduction and Targeted Therapy* <https://doi.org/10.1038/s41392-020-0118-x>, published online 11 March 2020.

Recently, in the process of collating the raw data, the authors noticed two inadvertent mistakes in Fig. 1 that need to be corrected.¹ The correct data are provided as follows. The key findings of the article are not affected by these corrections.

- (1) During the preparation of Fig. 1e, the image representing showing vimentin and E-cadherin expression in SUM-159 cells was made a mistake when pasted the picture, which is an inadvertent mistake. After checked the original data, we feel the figure should be as shown here.
- (2) In the right panel of Fig. 1h, the pillar color of ZEB1/231 cells under Palb treatment was inadvertently made a mistake. After checked the original data, we feel the figure should be as shown here.
