**ERRATUM**

Diagnosis, Assessment
& Disease Monitoring

# Erratum

In the paper by Jurre den Haan et al ("Retinal thickness as a potential biomarker in patients with amyloidproven early- and late-onset Alzheimer's disease," *Alzheimer's & Dementia: Diagnosis, Assessment & Disease Monitoring* 11 (2019) 463-471), several errors occurred in the preparation of the paper for publication, requiring the following corrections.

The appearance of 3 authors' names was incorrect in the original published version. "Haan, JD" should read "den Haan J;" "Kate, MT" should read "ten Kate, M;" and "Braber, AD" should read "A, den Braber."

We regret the error.
