“Physicians in the Era of Automation: The Case for Clinical Expertise” by David Chartash, Daniel Sassoon, and Naveen Muthu. *MDM Policy & Practice*; 2019. DOI: 10.1177/2381468319868968

SAGE Publishing regrets, due to an error at the copyediting stage, the article was originally published with the following inaccurate sentence:

“Braithwaite et al. note that given the increasing complexity of care systems, the delivery of safe medical care that humans function as a necessitates resource for system flexibility and resilience.”

This sentence has been replaced with the below corrected sentence:

“Braithwaite et al. note that given the increasing complexity of care systems, the delivery of safe medical care necessitates that humans function as a resource for system flexibility and resilience.”
