Withdrawal: Effect of Ser-129 phosphorylation on interaction of α -synuclein with synaptic and cellular membranes.

Naomi P. Visanji, Sabine Wislet-Gendebien, Loren W. Oschipok, Gang Zhang, Isabelle Aubert, Paul E. Fraser, and Anurag Tandon

This article has been withdrawn by Naomi Visanji, Sabine Wislet-Gendebien, Loren Oschipok, Isabelle Aubert, Paul Fraser, and Anurag Tandon. Gang Zhang was not reachable. The pS129 immunoblot in Fig. 1 was used for both membrane and cytosol fractions. In Fig. 4B, the pS129 blots from representative WT and A30P tissues are the same.
