The review article “Prophetic Medicine-*Nigella Sativa* (Black Cumin Seeds) – Potential Herb for COVID-19?” by Naina Mohamed Pakkir Maideen, was published with an incorrect figure and table title due to a production error. The correct titles are listed below.

Figure 1. Drugs used for arthritis. Conventional Disease Modifying Anti-Rheumatic Drugs (DMARDs).

This was an incorrect title and should be:

Figure1. Potential Pharmacological activities of *N. sativa* to manage COVID-19.

Table 2. Drugs used for arthritis. Conventional Disease Modifying Anti-Rheumatic Drugs (DMARDs).

This was an incorrect title and should be:

Table 1. Studies supporting the use of *N. sativa* to manage COVID-19.
