

Retraction for Bischof et al., "Human Papillomavirus Oncoprotein E7 Targets the Promyelocytic Leukemia Protein and Circumvents Cellular Senescence via the Rb and p53 Tumor Suppressor Pathways"

Oliver Bischof, Karim Nacerddine, and Anne Dejean

Nuclear Organisation and Oncogenesis Unit, INSERM U 579, Institut Pasteur, Paris, France

Volume 25, no. 3, p. 1013–1024, 2005, https://doi.org/10.1128/MCB.25.3.1013-1024.2005. We hereby retract this article. We were recently made aware of the presence of irregularities associated with the Western blots shown in several figures. We have further investigated the matter and found that Fig. 2B, 2C, and 3C had been inappropriately assembled. We sincerely apologize to the scientific community for any inconvenience resulting from the publication and subsequent retraction of this article.
