

Since January 2020 Elsevier has created a COVID-19 resource centre with free information in English and Mandarin on the novel coronavirus COVID-19. The COVID-19 resource centre is hosted on Elsevier Connect, the company's public news and information website.

Elsevier hereby grants permission to make all its COVID-19-related research that is available on the COVID-19 resource centre - including this research content - immediately available in PubMed Central and other publicly funded repositories, such as the WHO COVID database with rights for unrestricted research re-use and analyses in any form or by any means with acknowledgement of the original source. These permissions are granted for free by Elsevier for as long as the COVID-19 resource centre remains active.

Retraction notice

Retraction notice to “Chinese mental health burden during the COVID-19 pandemic” [Asian J. Psychiatr. 51 (2020) 102052]

Yeen Huang, Ning Zhao *

Huazhong University of Science and Technology, Union Shenzhen Hospital, China

This article has been retracted: please see Elsevier Policy on Article Withdrawal (<http://www.elsevier.com/locate/withdrawalpolicy>).

This article has been retracted at the request of the Editor in Chief.

The article is a duplicate of a paper that has already been published in *Psychiatry Research*, volume 288 (2020) 112954 <https://doi.org/10.1016/j.psychres.2020.112954>. One of the conditions of submission of a paper for publication is that authors declare explicitly that the paper has not been previously published and is not under consideration for publication elsewhere. As such this article represents a misuse of the

scientific publishing system. The scientific community takes a very strong view on this matter and apologies are offered to readers of the journal that this was not detected during the submission process.

Ning Zhao and Ning Zhao's institution (Huazhong University of Science and Technology Union Shenzhen Hospital) were not involved in the manuscript and were not aware of the multiple submissions by Yeen Huang. Author Yeen Huang's affiliation should be Shenzhen Second People's Hospital, not Huazhong University of Science and Technology Union Shenzhen Hospital
