

Corrigendum to: Recycling drug screen repurposes hydroxyurea as a sensitizer of glioblastomas to temozolomide targeting de novo DNA synthesis, irrespective of molecular subtype

Jian Teng, Seyedali Hejazi, Lotte Hiddingh, Litia Carvalho, Mark de Gooijer, Hiroaki Wakimoto, Marco Barazas, Marie Tannous, Andrew S. Chi, David P. Noske, Pieter Wesseling, Thomas Wurdinger, Tracy T. Batchelor, and Bakhos A. Tannous

The authors wish to correct a mistake in Figure 1, Panel A: the label for cell SNZ308, SNZ308r1, and SNZ308r2 should be LNZ308, LNZ308r1, and LNZ308r2, respectively (Volume 20, Issue 5, doi:10.1093/neuonc/nox198).
