

## Erratum

## Erratum regarding missing Declaration of Competing Interest statements in previously published articles

Declaration of Competing Interest statements were not included in the published version of the following articles that appeared in previous issues of SSM - Population Health.

The appropriate Declaration/Competing Interest statements, provided by the Authors, are included below.

1. Service usage by a New Zealand Housing First cohort prior to being housed (SSM - Population Health, 2019; 8C) <https://doi.org/10.1016/j.ssmph.2019.100432>

The authors declare that they have no known competing financial interests or personal relationships that could have appeared to influence the work reported in this paper.

2. A housing mobility program's impacts on teen and young adult parenting (SSM - Population Health, 2019; 9C) <https://doi.org/10.1016/j.ssmph.2019.100451>

The authors declare that they have no known competing financial interests or personal relationships that could have appeared to influence the work reported in this paper.

3. Social capital and HIV/AIDS in the United States: Knowledge, gaps, and future directions (SSM - Population Health, 2018; 5C) <https://doi.org/10.1016/j.ssmph.2018.05.007>

The authors declare that they have no known competing financial interests or personal relationships that could have appeared to influence the work reported in this paper.

4. Measuring social inequality in health amongst indigenous peoples in the Arctic. A comparison of different indicators of social disparity among the Inuit in Greenland (SSM - Population Health, 2018; 6C) <https://doi.org/10.1016/j.ssmph.2018.08.010>

The authors declare that they have no known competing financial interests or personal relationships that could have appeared to influence the work reported in this paper.

5. "I wanted a skeleton ... they brought a prince": A qualitative investigation of factors mediating the implementation of a Performance Based Incentive program in Malawi (SSM - Population Health, 2018; 5C) <https://doi.org/10.1016/j.ssmph.2018.04.006>

The authors declare that they have no known competing financial interests or personal relationships that could have appeared to influence the work reported in this paper.

6. Educational differences in the compression of disability incidence in the United States (SSM - Population Health, 2018; 7C) <https://doi.org/10.1016/j.ssmph.2018.100347>

The authors declare that they have no known competing financial interests or personal relationships that could have appeared to influence the work reported in this paper.

7. Patterned remittances enhance women's health-related autonomy (SSM - Population Health, 2019; 9C) <https://doi.org/10.1016/j.ssmph.2019.100370>

The authors declare that they have no known competing financial interests or personal relationships that could have appeared to influence the work reported in this paper.

8. Older mother's health and adult children's education: Conceptualization of adult children's education and mother-child relationships (SSM - Population Health, 2019; 7C) <https://doi.org/10.1016/j.ssmph.2019.100390>

The authors declare that they have no known competing financial interests or personal relationships that could have appeared to influence the work reported in this paper.

9. Blue-collar work and women's health: A systematic review of the evidence from 1990 to 2015 (SSM - Population Health, 2018; 6C) <https://doi.org/10.1016/j.ssmph.2018.08.002>
