

Erratum

Erratum regarding missing Declaration of Competing Interest statements in previously published articles

Declaration of Competing Interest statements were not included in the published version of the following articles that appeared in previous issues of SSM - Population Health.

The appropriate Declaration/Competing Interest statements, provided by the Authors, are included below.

- 1 Weighed down by discriminatory policing: Perceived unfair treatment and black-white disparities in waist circumference (SSM - Population Health, 2018; 5C: 210–217) <https://doi.org/10.1016/j.ssmph.2018.07.002> The authors were contacted after publication to request a Declaration of Interest statement.
- 2 Pathways to ethnic differences in obesity: The role of migration, culture and socio-economic position in the UK (SSM - Population Health, 2019; 7C) <https://doi.org/10.1016/j.ssmph.2019.100394> The authors declare that they have no known competing financial interests or personal relationships that could have appeared to influence the work reported in this paper.
- 3 Partnership trajectories and cardiovascular health in late life of older adults in England and Germany (SSM - Population Health, 2018; 6C: 26–35) <https://doi.org/10.1016/j.ssmph.2018.08.001> The authors were contacted after publication to request a Declaration of Interest statement.
- 4 Social participation, health literacy, and health and well-being: A cross-sectional study in Ghana (SSM - Population Health, 2018; 4C: 263–270) <https://doi.org/10.1016/j.ssmph.2018.02.005> The authors were contacted after publication to request a Declaration of Interest statement.
- 5 Health endowment and later-life outcomes in the labour market: Evidence using genetic risk scores and reduced-form models (SSM - Population Health, 2019; 7C) <https://doi.org/10.1016/j.ssmph.2019.100379> The authors were contacted after publication to request a Declaration of Interest statement.
- 6 The impact of childhood socioeconomic status on depression and anxiety in adult life: Testing the accumulation, critical period and social mobility hypotheses (SSM - Population Health, 2020; 11C) <https://doi.org/10.1016/j.ssmph.2020.100576> The authors were contacted after publication to request a Declaration of Interest statement.
- 7 Child living arrangements following separation and mental health of parents in Sweden (SSM - Population Health, 2019; 10C) <https://doi.org/10.1016/j.ssmph.2019.100511> The authors were contacted after publication to request a Declaration of Interest statement.
- 8 Utilization of LGBT-Specific clinics and providers across three cohorts of lesbian, gay, and bisexual people in the United States (SSM - Population Health, 2019; 9C) <https://doi.org/10.1016/j.ssmph.2019.100505> The authors were contacted after publication to request a Declaration of Interest statement.
- 9 Investigating the Early Life Determinants of Type-II Diabetes Using a Project Talent-Medicare Linked Data-set (SSM - Population Health, 2018; 4C:189–196) <https://doi.org/10.1016/j.ssmph.2018.01.004> The authors were contacted after publication to request a Declaration of Interest statement.
- 10 Period and cohort-specific trends in life expectancy at different ages: Analysis of survival in high-income countries (SSM - Population Health, 2019; 8C) <https://doi.org/10.1016/j.ssmph.2019.100422> The authors were contacted after publication to request a Declaration of Interest statement.
- 11 Relative deprivation and its association with health indicators: Lower inequality may not improve health (SSM - Population Health, 2019; 7C) <https://doi.org/10.1016/j.ssmph.2019.100381> The authors were contacted after publication to request a Declaration of Interest statement.
- 12 How are the domains of women's inclusion, justice, and security associated with maternal and infant mortality across countries? Insights from the Women, Peace, and Security Index (SSM - Population Health, 2020; 9C) <https://doi.org/10.1016/j.ssmph.2019.100486> The authors declare that they have no known competing financial interests or personal relationships that could have appeared to influence the work reported in this paper.
- 13 The causal effect of retirement on stress in older adults in China: A regression discontinuity study (SSM - Population Health, 2019; 10C) <https://doi.org/10.1016/j.ssmph.2019.100462> The authors declare that they have no known competing financial interests or personal relationships that could have appeared to influence the work reported in this paper.
