

Erratum regarding missing Declaration of Competing Interest statements in previously published articles

Declaration of Competing Interest statements were not included in the published version of the following articles that appeared in previous issues of Contemporary Clinical Trials Communications.

The appropriate Declaration/Competing Interest statements, provided by the Authors, are included below.

- 1 “Evaluating the effectiveness and reliability of the Vibrant Soundbridge and Bonebridge auditory implants in clinical practice: Study design and methods for a multi-centre longitudinal observational study” [Contemporary Clinical Trials Communications, 2018; 10: 137–140] <https://doi.org/10.1016/j.conctc.2018.03.007>.

Declaration of competing interest: This research was partially funded by a research grant from MEDEL. This covered the cost of a part-time researcher to monitor study and enter the data. The results will be independently analysed by the Chief Investigator.

- 2 “Treatment of trauma related anger in operation enduring freedom, operation Iraqi freedom, and operation New Dawn veterans: Rationale and study protocol” [Contemporary Clinical Trials Communications, 2018; 12: 26–31].

<https://doi.org/10.1016/j.conctc.2018.08.011>.

Declaration of competing interest: The authors declare that they have no known competing financial interests or personal relationships that could have appeared to influence the work reported in this paper.

- 3 “Different ways to estimate treatment effects in randomised controlled trials” [Contemporary Clinical Trials Communications, 2018; 10: 80–85]. <https://doi.org/10.1016/j.conctc.2018.03.008>.

Declaration of competing interest: The authors declare that they have no known competing financial interests or personal relationships that could have appeared to influence the work reported in this paper.

- 4 “Recruitment & retention program for the NeuroNEXT SMA Biomarker Study: Super Babies for SMA!” [Contemporary Clinical

Trials Communications, 2018; 11: 113–119] <https://doi.org/10.1016/j.conctc.2018.07.002>.

Declaration of competing interest: The authors declare that they have no known competing financial interests or personal relationships that could have appeared to influence the work reported in this paper.

- 5 “Two-step recruitment process optimizes retention in FLEX clinical trial” [Contemporary Clinical Trials Communications, 2018; 12: 68–75]. <https://doi.org/10.1016/j.conctc.2018.09.005>.

Declaration of competing interest: The authors declare that they have no known competing financial interests or personal relationships that could have appeared to influence the work reported in this paper.

- 6 “Design of an experimental protocol to examine medication non-adherence among young drivers diagnosed with ADHD: A driving simulator study” [Contemporary Clinical Trials Communications, 2018; 11: 149–155]. <https://doi.org/10.1016/j.conctc.2018.07.007>.

Declaration of competing interest: The authors declare that they have no known competing financial interests or personal relationships that could have appeared to influence the work reported in this paper.

- 7 “Exercise training as S-Klotho protein stimulator in sedentary healthy adults: Rationale, design, and methodology” [Contemporary Clinical Trials Communications, 2018; 11: 10–19] <https://doi.org/10.1016/j.conctc.2018.05.013>.

Declaration of competing interest: The authors declare that they have no known competing financial interests or personal relationships that could have appeared to influence the work reported in this paper.

- 8 “Extensions of the mTPI and TEQR designs to include non-monotone efficacy in addition to toxicity for optimal dose determination for early phase immunotherapy oncology trials” [Contemporary Clinical Trials Communications, 2018; 10: 62–76]. <https://doi.org/10.1016/j.conctc.2018.01.006>.
