## **ALS/FTLD-Linked Mutations in FUS Glycine Residues Cause Accelerated Gelation and Reduced Interactions with Wild-Type FUS**

**Kevin Rhine, Monika A. Makurath, James Liu, Sophie Skanchy, Christian Lopez, Kevin F. Catalan, Ye Ma, Charlotte M. Fare, James Shorter, Taekjip Ha, Yann R. Chemla, Sua Myong\***

---

In the originally published version of this article, two co-authors, Charlotte M. Fare and James Shorter, were mistakenly excluded from the author list. The article with a corrected author list and author contributions section now appears online. The authors apologize for this error.
